

Donavon Frankenreiter, Call Me Papa

Moon comes up and the moon goes down
Another sleepless night, another sleepless town
But I got you, I got you

Whenever I think about what I lost
I change my mind instead to what I've still got
Because I've got you, I said I got you

You can call me papa, and ill call you baby
Don't forget your mamas my, baby too
Wherever you go, whatever you do
I will be there, I'll be there for you

Soon enough you know ill be around
But that ai'nt soon enough because it ai'nt right now
And I need you, I said I got you

When you close your eyes and you drift to sleep
From time to time I hope you run into me
I'm thinking of you, I hope you see me too

You can call me papa, and ill call you baby
Don't forget that your mamas my, baby too
Wherever you go, whatever you do
I will be there, I'll be there for you
You know I will now

You can call me papa, and ill call you baby
Don't forget that your mamas my, baby too
Wherever you go, whatever you do
I will be there, I'll be there for you
You know ill be there, I said ill be there
