

# Donell Jones, All Her Love

[verse 1]

She's got a man, another situation  
I understand that's how it's got to be  
Ain't trying to cause her no complications  
I'd walk away, but I'm in too deep  
I can't make no plans, got me so frustrated  
'cause in my heart I want you desperately  
Done ran away from all the girls I've been dating  
When I'm with them, it's only you I see  
And she promised me that it would take some time  
But she would leave him alone  
And the thought of her loving only me  
That's the thing that keeps me strong

[chorus]

She give me all her love  
But only half the time  
Still it's more than enough  
To keep my hope alive

[verse 2]

Just yesterday I saw them shopping at the mall  
Looked like she tried on a diamond ring  
The way he held her down, it drove me crazy  
Spent half the day wishing that it was me  
I can't make no plans, got me so frustrated  
'cause in my heart I want you desperately  
Done ran away from all the girls I've been dating  
When I'm with them, it's only you I see  
And she promised me that it would take some time  
But she would leave him alone  
And the thought of her loving only me  
That's the thing that keeps me strong

[chorus]

[bridge]

A secret rendezvous, just to spend time with you  
Girl, I need you in my life  
And if I had to choose, the thought would still be you  
Just as long as...

[chorus]

She give me all her love  
And it's enough for me, 'cause I'm never gonna leave, and  
She gives me all love  
And it's enough for me, 'cause I'm never gonna leave, and  
Ooh, said I'm never gonna leave  
I've been getting all your love, half the time, oh no...

[chorus]

Oh, na, na, na, na, na, na  
Oh, na, na, na, na, na, na  
Oh, na, na, na, na, na, na  
Oh, na, na, na, na, na, na
