

# Donell Jones, My Apology

[Verse 1:]

Oh why Oh why Oh why you let me do the things I do  
But you never did it to me?  
I can't believe that I could treat my baby so uncool  
All she ever wanted was me  
Many nights I watched her cry from silly sh-t I put her through  
Like havin females callin the crib  
Wish that I could just rewind all the years I hurt ya boo

[Chorus:]

That's the Gemini in me  
Got split personalities  
Stop and check on that high with me  
I'm a provider G  
Bills paid on the first you see  
Keep a pocket full of currency  
You said you'd never leave  
Now you tryna turn ya back on me  
Understand you got no trust in me  
But I'll change for you  
If you promise that you'll stay with me  
Please accept my apology

[Verse 2:]

Looking back I know that I physically neglected you  
Cuz we wasn't havin no sex  
Many years screamed and yelled, ranting and raving like a fool  
Mentally abusing you  
I hope it's something left inside cuz girl I wanna be with you  
Got to know I'm willing to change  
Wish that I could just rewind all the years I hurt ya boo

[Chorus]

Babyyy  
That's the Gemini in me [echo]  
Gemini in me, Gemini in me  
Don't you leave

[Chorus til end]
