

Donell Jones, You Didn't

Verse 1:

Gotta get it out my mind, but how can I erase
All the lies you told me girl was right in front'a my face
I feel like we've been here before, even though we ain't the same
Baby you can hit the door 'cause I'm tired of playin' these games

Chorus x 4:

You didn't love me the way that I love you

Verse 2:

All the numbers in your phone, how could you do me wrong baby?
Can't believe the girl I love would make me feel this way
I tried to build a unity with you and me, but now its gone
'Cause we fit together beautifully, I wish you'd see you're breaking up this bond

Chorus x 4:

You didn't love me the way that I love you

(I think you know its over)

'Cause I can do without you baby

(I think you know its over)

'Cause you're about to drive me crazy

(Ooo yaa)

Chorus x 4:

You didn't love me the way that I love you

(I think you know its over)

'Cause I can do without you baby

(I think you know its over)

'Cause you're about to drive me crazy

(Ooo yaa)

Chorus x 8:

You didn't love me the way that I love you
