Donna Fargo, What Will The New Year Bring?

This past year was good to us the one before just a little rough The one before that was an awful thing what will the new year bring Will it bring us a little boy to fill our lives with love and joy We've had our share of growing pains what will the new year bring You're still one and one makes two now one and one make one I hope you will love me throughout the year to come

We've made our mistakes with love we learned that it can't promise us Tomorrow and forever things what will the new year bring Wish I hadn't read our horoscope things look stormy for Scorpios Virgo's posed to sprout their wings what will the new year bring Will you want me to love you the way you know I do And will you walk through life with me another year or two Or three or four or five or six hundred years or more Happy New Year darling for whatever is in store
