

# Donna Lewis, Love Him

You are the cool earth  
you are the city lights  
you are the jewel  
forever in my sight

You with the strong heart  
you with the trusting words  
you shutting your eyes  
slumber in your soft chair

Ah love him  
Ah love him...

I see you in the mellow sun  
In weekday overalls  
you with a hint of white  
and a wave of gold

you walk like blue ice  
tender but tough  
you are my morning glory

Ah love him... ... you are the sky my big sky  
Ah love him... ... you are the guy my big guy  
Ah love him... ... you are the sky my big sky  
Ah love him... ... you are the guy my big guy

2 little girls  
2 guys strumming  
Howie and Louie start playing the blues  
It had to be you  
wonderful you  
In all of me

Ah love him... ... you are the sky my big sky  
Ah love him... ... you are the guy my big guy

You are the cool earth (yeh yeh)  
you are the gentle rain (yeh yeh)  
you are the note that remains  
you are my big sky

Repeat

You are the cool cool earth  
you are the gentle rain  
ah love him  
you are my big sky  
my big guy  
my big big sky
