

# Donna Lewis, Nothing Ever Changes

Standing in isolation  
Roadless wilderness  
Faded and discarded  
The last leaves' gone  
Gone...  
And let me tell you

Nothing ever changes  
Nothing ever changes

Farewell to my first love  
Farewell for all time  
Pleasure for the loving  
There they lie  
Eye to eye..  
And baby, baby

Nothing ever changes  
Nothing ever changes

Lay down  
Let it break down  
The hidden tortures  
To an end...

Nothing ever changes  
Nothing ever changes
