

# Donnie Iris, Ah! Leah! (Acoustic Version)

Leah it's been a long long time  
You're such a site you're  
Looking better than a body has a right to  
Dontcha know we're playing with the fire  
But we can't stop this burning desire Leah

I see your lips and I wonder who's been kissing them  
I never knew how badly I was missing them  
We both know we're never gonna make it  
But when we touch we never have to fake it Leah Leah Leah

Baby it's no good  
We're just asking for trouble  
I can touch you but I don't know how to love you  
It ain't no use we're headed for disaster  
Our minds said no but our hearts were talking faster Leah Leah Leah
