

# Donnie, Knock Em Out, Knock Em Down

(feat. DMX, Tha Jinx, Special K)

[Verse 1: Donnie]

On the way to the ocean front, music blasting - smoking blunts  
Me and a hoe in front, showing stunts, I can flow for months  
Without stopping, without dropping, gats I pop 'em  
Hoes I shock 'em, flows I lock 'em, nice clothes I rock 'em  
But I'm still making ladies obey me, and wanna claim me  
You can't play me safely, so if you get smacked - you can't blame me  
I knock em out, I knock em down, I make em pout, I make em frown  
Don't rob a house, I rob the town, I dominate the underground  
While your beat's nothing, but yet you keep trucking  
Puff Donnie's tracks making you hit repeat buttons  
Knock Out blow your block out, make you drop out  
You best just not doubt, when we're out - its hot out  
Learn from the impression that I'm stressing through this lesson  
You need to quit messing if ya addressing what I'm best in  
No question, you ain't testing whether rapping or sexing  
This is my session, your story ain't interesting

[Hook: DMX]

You gotta block em out, you gotta block em now  
You gotta knock em out, you gotta knock em down  
You gotta shock the crowd, you gotta shock the town  
You gotta knock em out, you gotta know em down  
You gotta drop em out, you gotta stop em now  
You gotta knock em out, you gotta know em down  
You gotta rock it loud, don't never turn it down  
You gotta knock em out, you gotta know em down

[Verse 2: Tha Jinx]

It's a first round knock down, we got it locked down  
We're getting pretty angry so you better stop now  
We respect the laws set by the previous kings  
Get rid of all the hoes doing devious things  
You thought you got what it takes to keep it hot?  
But you don't, and you won't, so either it's me or it's not

[Verse 3: Special K]

Three things in life that will keep you on top  
Money Hoes & Clothes, you need to shop, jock, and rock  
We got plots to get yachts, but keep a hand on your land  
Hit vacations to the islands and plan to get tans  
I told your hoe we knock em out and knock em down  
That's why I had her on me  
And tell her we don't shop around  
It's only Abercrombie  
Might rock the black Armani at the Grammy's this year  
But besides that, it will be nice if you're talking my gear

[Verse 3: Donnie]

Much later in time, most haters will find  
You won't never find rhymes that are greater than mine  
Conscience is talking like "he ain't shit, I can flow better"

But rappers come at me and rappers get no cheddar  
You should know better, you can't block out our sound  
Bring everybody, we can Knock Out the town  
You wanna throw blows but I'm putting up a hot fight  
You're at the intersection, I'm putting up a stop light  
We can go all night, mics and beats get turned off  
I flow hot forever, until you're ears gets burned off  
You must be new at this, my hits are not fortuitous  
My tracks and Billboard are like glue, it sticks  
I stay true to this game and play my way, always  
Keep saying that you're paid, that's what they all say  
I bring it all day, with Special K at my side  
Your hoes come for the show and they stay for the ride

[Hook: DMX]

You gotta block em out, you gotta block em now  
You gotta knock em out, you gotta knock em down  
You gotta shock the crowd, you gotta shock the town  
You gotta knock em out, you gotta know em down
