

# Donny Osmond, In It For Love

I've loved and I've lost  
I've added the cost up  
Now I want to live  
Free to start all over  
And if you say you will

I've nothing to promise  
and all that I want is  
To know we have this chance  
We can make a different  
If you'd just understand

That I'm in it for love  
I'm not in it for the love of a stranger  
There's no limit for us  
Let the walls come tumbling down

You've sheltered your dreams  
And what does it mean  
To you if you can't say  
You have someone to side with you  
When you're going against the grave

I've been there before  
but one things for sure□  
This time I need some help  
This heart holds out for you  
Waiting here for no one else

I'm in it for love

I'm not in it for the love of a stranger  
Cause there ain't enough time  
There ain't enough love to be found in this world  
If we're in it for love  
There can be no hurt harm or danger  
There's no limit for us  
Let the walls come tumbling down

You and me  
Leaving our heart ache in the sand  
the skies wide open this time  
This time it's love  
We're holding in our hands

I'm in it for love  
I'm not in it for the love of a stranger  
Cause there ain't enough time  
There ain't enough love to be found in this world  
If we're in it for love  
There can be no hurt harm or danger  
There's no limit for us  
Let the walls come tumbling down

In it for love  
In it for love

In it for love  
Oh I'm in it for love  
I'm in it for love  
Nothing else but love
