Donny Osmond, Whenever You're In Trouble

Tell me from the heart
in your eyes I see the pain
Its tearing you apart
Let me take it all away
You know someone believes in you
When they love you no matter what you do
You know you are home
And you you're not alone
When you hear me say

Whenever you're in trouble
Whenever you need me
I will fight for you
I will help you through
Whenever life's deceiving
I'll give you new meaning
No matter where you are
You're always in my heart
Whenever you're in trouble I will be right here

Sometimes you're gonna find
Nothing goes the way you planned
But whatever's on your mind
I will try to understand
You know someone is by your side
Whenever they help you through the darkest night
You know you are home
And you're not alone
When you hear me say

Whenever you're in trouble

Whenever you need me
I will fight for you
I will help you through
Whenever life's deceiving
I'll give you new meaning
No matter where you are
You're always in my heart
Whenever you're in trouble I will be right here

Now's the time
To share what you're feeling inside
No matter how long it takes
No matter how many mistakes
Oh, now is the time
To reach and you will find
That whenever you need me to care
I'll always be there

Whenever you're in trouble
Whenever you may need me
I will fight for you
I will help you through
Whenever life's deceiving
I'll give you new meaning
No matter where you are
You're always in my heart
Whenever you're in trouble I will be right here

Ohhhh, I will be right here
Whenever you're in trouble
I will be right here...
