

# Donots, Killing Time

You're so much more to me  
These chords are yours to keep  
Toight I'll guard your sleep  
No matter what they see  
You're more to me

Make this last forever  
Cause we're amount to much  
When we're togethther  
And I could be the crutch  
To make you better  
If I could rest my head on your shoulder  
Untill it's over

How come you can see me?  
Everyone walks right through me  
I'm just a ghost, you see  
I'm so out of reach

Make this last forever  
Cause we're amount to much  
When we're togethther  
And I could be the crutch  
To make you better  
If I could rest my head on your shoulder  
Untill it's over

We're killing time, not doing time  
We'll be alright so close your eyes  
Just take my hand and don't let go  
(Until it's over)  
We're killing time for one more time  
Just roll the titles, say good-night  
This casket's big enough for two

How come you can see me?  
Everyone walks right through me  
How come you can see me?  
Everyone walks right through me

Make this last forever  
Cause we're amount to much  
When we're togethther  
And you could be the crutch  
To make me better  
If you could rest your head on my shoulder  
Untill it's over

We're killing time, not doing time  
We'll be alright so close your eyes  
Just take my hand and don't let go  
(Until it's over)  
We're killing time for one more time  
Just roll the titles, say good-night  
This casket's big enough for two

Killing time, not doing time  
Untill it's over  
Killing time for one more time  
Untill it's over  
Killing time, not doing time  
Untill it's over  
Killing time for one more time  
Untill it's over
