

# Donots, Stop The Clocks

Lies

Demand another lie  
No matter how I try  
Wish I could disappear  
I know myself  
I know myself well enough

Down

The only way is down  
My face down on the ground  
What am I doing here?  
I know myself  
I know myself well enough

And if I could stop the clocks  
If I could make this moment mine  
I'd make the most of a bad time  
I wish I could stop the clocks  
And wash away those lies  
It's all that I could wish for  
Tonight

Down

The only way is down  
My face down on the ground  
What am I doing here?  
I know myself  
I know myself well enough

And now my angels need angels  
To help me get out of this hell  
I know myself well enough  
To know that I don't know myself

And if I could stop the clocks  
If I could make this moment mine  
I'd make the most of a bad time  
I wish I could stop the clocks  
And wash away those lies  
It's all that I could wish for  
Tonight

And if I could stop the clocks  
If I could make this moment mine  
I'd make the most of a bad time  
I wish I could stop the clocks  
And wash away those lies  
It's all that I could wish for  
Tonight
