

Dontae, Through The Wall

Told you I'd be working late
Now I'm on my way home, babe
Cause I'd rather be with you tonight
As I approach your door
Got a feeling you ain't alone
Suspicious that this has got me
Concerned, yeah
I hear voices
I'm peeking through the window
Hoping that you're just watching a movie with surround on
I hear your neighbor call out
Don't like this feeling at all
What is going on?
My pulse has raced as we're running down my face
And I'm trying to collect myself
Hope you ain't tryna play me
Don't like what I'm hearing
I think you're messing with somebody else, baby
[Chorus:]
I think I hear you through the wall fool around
I think I hear you through the wall making love
I think I hear you through the wall
I hear you through the wall
I hear you through the wall
Cause I'm on the other side
I think I hear you through the wall fool around
I think I hear you through the wall making love
I think I hear you through the wall
I hear you through the wall
I hear you through the wall
I-I-I hear you through the wall
I hope my ears are playing tricks on me
Like I hope this is just a dream
Cause I never thought that this could happen in my reality, no
How could you not hear the doorbell ring?
Pushed it two times, is it not working?
Let me calm down cause maybe I'm imagining things
But I think I hear you
[Chorus]
I hear voices
I'm peeking through the window
Hoping that you're just watching a movie with surround on
I hear your neighbor call out
Don't like this feeling at all
What is going on?
My pulse has raced as we're running down my face
And I'm trying to collect myself
Hope you ain't tryna play me
Don't like what I'm hearing
I think you're messing with somebody, baby
Yeah
Oh why?
Why? Yeah
Oh why?
Oh, I'm thinking
[Chorus x2]
