

Dontae, You Can Do Better

Without a question you been
Hurt a little, drove a little
Taunt a little, cry a little
And you done enough, said enough
What is the point trying to work things out
Now baby you going to have to stop
Blaming yourself, putting yourself down
Cause girl you can do it with out
Oh, you shouldn't have to
Put yourself threw it, threw it
Stop giving chances, chances
Girl you don't deserve it
This makes no sense girl [x2]
You can do better [x2]
Without a question get mad a lot
Pound a lot, shout a lot
You been missing out
Because you so confuse
Either way you lose
What is it you trying to hold to?
Not another heartbreak
You already vend out of shape
I'm not the outside, looking in you
You don't need a headache
You don't need [x2]
Part time love, full time tease
It don't seem [x2]
It don't seem like
See how he hurt you heart and still don't care
That's going to change
You know it, this and live it
Who you get in, girl admit it
I know you can do much better
Oh, you shouldn't have to
Put yourself threw it, threw it
Stop giving chances, chances
Girl you don't deserve it
This makes no sense girl [x2]
You can do better [x2]
Why don't you take a step back
And she how much you worth
Side kick ain't for you girl
You so thrill, that's my world
So far I witness you down
With this shit, so hard for me
When I know you can do so much better
Oh, you shouldn't have to
Put yourself threw it, threw it
Stop giving chances, chances
Girl you don't deserve it
This makes no sense girl [x2]
You can do better [x2]
You can do better [x2]
