

Doomsday Refreshment Committee, Black

Down deep inside
That's where it hides
A part if you so black
It never dies

There's only so much
That you can hide away
Your HELL is coming
And hell you will pay

There is no love
Breed only hate
It's time to wake up
Accept your fate

Come into me
And you will see
I am the everything
That you hope to be

I am the strong
I will survive
And I will never be
A drone in the hive

The war I wage
Will be won
The taste of victory
Army Of One!
