

Dopamine, I Disappear

If it's time to disappear
then why do I feel so unwilling
to give up on this life
and just throw away my everything

If you search inside yourself
we'll rediscover deeper meanings
on the cusp of a new hope
we can wear our hearts on well-worn sleeves

Do we just give up now
Do we just give up now
Do we just give up now
Do we just
Do we just

Can't stop once you've started now
one push then it's over
don't look down
you won't feel the ground
Yeah
I'm so scared I'll lose you all
but I'll be there for you always
if you want me

It's my time to disappear
and I'm ashamed that I am more than willing
to throw away my life
and just give up on my everything

In the earth beneath my feet
there's a chance for me, a new beginning
don't you let me down
please don't hate me now

Can't stop once you've started now
one push then it's over
don't look down
you won't feel the ground
yeah
I'm so scared I'll lose you all
but I'll be there for you always
if you want me

Do we just give up now
Do we just give up now
Do we just give up now
Do we just
Do we just

Do we just give up now
Do we just give up now
Do we just give up now
Do we just
Do we just

Do we just give up now
Do we just give up now
Do we just give up now
Do we just
Do we just

Can't stop once you've started now
(do we just give up now)

one push then it's over
(do we just give up now)
don't look down
(do we just give up now)
you won't feel the ground
(do we just, do we just)

yeah
I'm so scared I'll lose you all
(do we just give up now)
but I'll be there for you always
(do we just give up now, do we just give up now)
If you want me
(do we just give up now)

Do we just give up now
Do we just give up now
Do we just give up now
Do we just
Do we just

Do we just give up now
Do we just give up now
Do we just give up now
Do we just
Do we
