

Dope, Kimberly's Ghost

I dont know what makes me hard for you
i dont know what im about to do, yeah
i dont need this anymore
my head is broke my eyes are sore
and man you wanted everything
i never wanted anything from you

what can i do, i dont hate you
now that it is through, what will i do
whats it to you, i can hate too
thats what i'll do, what about you

I dont know what makes me come for you
i dont know theres nothing left to do, yeah
Sometimes we all make mistakes
ive made my share, i can relate
ive taken all that i can take
i gave my all, so heres goodbye to you

what can i do, i dont need you
now that it is through, what will i do
whats it to you, i can hate too
thats what i'll do, what about you

some will live and some will die
you never listen never mind
i couldnt give this one more night
and when youre gone i'll still be tired of you

what can i do, i dont need you
now that it is through, what will i do
whats it to you, i can hate too
thats what i'll do, what about you
