

Dope, Let's Fuck

I see you baby and you're looking so good
I got a feeling and I think that we should
Let's take it outside, let's go for a ride
Let's do it whatever we want
Let's make it a crime, let's do it in time
Let's do it wherever we want

Let's fuck (x2)

I wanna baby and I know that you would
I got it baby and I know that you're good
Let's do it for sin, let's bring in your friends
Let's do it whatever we want
Let's do it for them, let's do it again
Let's do it wherever we want

Let's fuck (x4)

Let's go all the way
Let's do it all day
Let's do it whatever we want
Let's turn out the lights
Let's do it all night
Let's do it as long as we want

Let's fuck (x3)

Let's do it again
Let's do it whatever we want
Let's fuck
Let's do it again
Let's do it whatever we want

Let's fuck (x3)

Let's do it again
Let's do it whatever we want
Let's fuck
