

Dope, No Chance

Chance
Chance
Chance

If you mess with me you got no chance
No chance in hell
You got no chance
If you mess with me you got no chance
No chance in hell
You got no chance

Welcome to my world
This world I made
How I love my world
In my world I'll break your face

This is my world
This is my world

And if you mess with me you got no chance
No chance
You got no chance
If you mess with me you got no chance
No chance in hell
You got no chance

Welcome to my world
My world's a stage
Look at all my fantasies
Feel all my pain

This is my world
This is my world

And if you mess with me you got no chance
No chance in hell
You got no chance
If you mess with me you got no chance
No chance in hell
You got no chance

This is my world
This is my world

And if you mess with me you got no chance
No chance in hell
You got no chance
If you mess with me you got no chance
No chance in hell
You got no chance
