

Dope, No Chance In Hell

If you mess with me you've got no chance,
No chance in hell.
You've got no chance.
If you mess with me you've got no chance,
No chance in hell.
You've got no chance.

Welcome to my world,
This world I've made.
How I love my world,
In my world I'll break your face.

This is my world.
This is my world.

And if you mess with me you've got no chance,
No chance in hell.
You've got no chance.
If you mess with me you've got no chance,
No chance in hell.
You've got no chance.

Welcome to my world,
My world's a stage.
Look at all my fantasies,
Feel all my pain.

This is my world.
This is my world.

And if you mess with me you've got no chance,
No chance in hell.
You've got no chance.
If you mess with me you've got no chance,
No chance in hell.
You've got no chance.

This is my world.
This is my world.

And if you mess with me you've got no chance,
No chance in hell.
You've got no chance.
If you mess with me you've got no chance,
No chance in hell.
You've got no chance.
