Dope stars inc, I'm Overdriven

Now we go
with the steel in my corpse
I'm not a clone
I got body and soul
and you certainly know
you are not my god
are you ready for
the last dance to the core
(oh oh oh)
And I crave
but I don't know
what's going on
I'm not a drone
body and soul
videodrone
I'm asking for my flesh
and I failed
to hack the system
fuck the software
find the matrix
set the core
paste my settings
and get me world
I'm overdriven
neurocancer in my veins
just chaos in my brain
oh oh oh oh oh
And I crave
but I don't know
what's going on
I'm not a drone
body and soul
videodrone
I'm asking for my flesh
and I failed
to hack the system
fuck the software
find the matrix
set the core
paste my settings
and get me world
I'm overdriven
neurocancer in my veins
just chaos in my brain
oh oh oh oh oh
Attention!
I'm overdriven
neurocancer in my veins
just chaos in my brain
oh oh oh oh oh
