

Dope stars inc, Play 'N' Kill

Hey human! what are your doing here?
Get you fucking face away form my sight motherfucker!
World of disorder.
Mechanical embrace.
Across the border
Of human race decay.
Toxic pollution
Of military trash.
Rust all around this earth.
Men eating human felsh.
Asshole forget to make your world come back.
I killed your fate and slaugthered all your race.
Yeah the brand new generation of machines.
Programmed disposition for your needs.
Yeah the brand new generation of machines.
To make your war to play and kill
