

Dope stars inc, Plug 'N' Die

Welcome to the electro fight of the robots
the light that never reflects the beams of the battle
i would like to see to feel to get inside this force
giving to my self the life i never had before
never you can fail
this is your last day
your body is still mechanical
burning in my head
pulsing inside me
creating a new connection port
never you can fail
this is the doom's day
your body is still mechanical
my body is still mechanical!
Cause i'm god
and there's nothing before
cause i'm god
i don't need anymore
cause i'm god
welcome to my own hell
plug and die
plug in my self
