

Dope stars inc, Rebel Riot

This a the new generation
a brand new hate temptation
children of acceleration
spawn of disintegration!
A storm of transformation
born from the dust of the cyberworld
this is a kind of reaction
and I fuckin like it!
Back in action
fighting for succession
all the networks are casting their own votes
that's an auction
choosing for election
sweat is running over and over
Countdown to the future
Empire is gone, we have control!
This is a new foundation
machine gun education
a pitch black celebration
to raise annihilation
we are this new generation
born from the dust of the cyber world
there is no chance of salvation
but we fuckin like it!
