

Dope Stars Inc., Theta Titanium

Bionic hordes all around
Apocalypse now
Last generation fight again
To find a safe place
This earth is not a safe place
this earth is just a dead place
this earth can't be the same again
this earth is dying!

Theta Titanium
hey hey

The rendezvous is fixed now
this is the last jump
last exodus to find a place
to start to live again
countdown to start a new race
countdown to get a new faith
countdown and leave this dead place
countdown done!

Theta Titanium
hey hey

I see my earth again yeah
but I can see just through
the windows of my ship
I see my earth again yeah
unrecognizable, destroyed by human race

Theta Titanium
hey hey
