

Doris, You Made A Fool Of Me

You made a fool of me last night
Saying I couldn't make love
Maybe I didn't know how
To handle tough guys like you

You made a fool of me last night
Throwing out terrible lies
Saying things that were not nice
I didn't think that of you

You made romance to the girls who were my friends
To make me jealous and weak
But all the comical stories that you tell
Just make me sick

You made a fool of me last night
Don't try to call me again
You are no longer my man
Please try to find someone new

You made a fool of me last night
Saying I couldn't make love
Maybe I didn't know how
To handle tough guys like you

You made romance to the girls who were my friends
To make me jealous and weak
But all the comical stories that you tell
Just make me sick

You made a fool of me last night
Don't try to call me again
You are no longer my man
Please try to find someone new
