Doris, You Made A Fool Of Me

You made a fool of me last night Saying I couldn't make love Maybe I didn't know how To handle tough guys like you

You made a fool of me last night Throwing out terrible lies Saying things that were not nice I didn't think that of you

You made romance to the girls who were my friends To make me jealous and weak But all the comical stories that you tell Just make me sick

You made a fool of me last night Don't try to call me again You are no longer my man Please try to find someone new

You made a fool of me last night Saying I couldn't make love Maybe I didn't know how To handle tough guys like you

You made romance to the girls who were my friends To make me jealous and weak But all the comical stories that you tell Just make me sick

You made a fool of me last night Don't try to call me again You are no longer my man Please try to find someone new
