

Doro, Bond Unending (feat. Sammy Amara of Bro

Standing together, whatever will be
Stand for each other, let everyone see
The bond that we are having is running so deep
That is the way, the way how we feel
We're holding each other
When time's running out
The world's getting harder,
We're having no doubt
Together we'll make it, sacred and sound
Sacred and sound

Here's to you
To our love
To our friendship
To our bond unending
To our love
To our hearts
To our bond unending

We're standing together, whatever will be
Holding each other, let everyone see
The bond that we're having is running so deep
Running so deep, it's the way how we feel
Holding each other, when time's running out
The world's getting harder
We're having no doubt
Together we'll make it, sacred and sound
Sacred and sound

Here's to you
To our love
To our friendship
To our bond unending
To our love
To our hearts
To our bond unending
The world's on fire
Our hearts in flames
Look out for each other
We can't be tamed

Here's to you
To our love
To our friendship
To our bond unending
To our love
To our hearts
To our bond unending
The world's on fire
Our hearts in flames
Look out for each other
We can't be tamed
