

Doro, I'm In Love With You

Night after night, stroll out in the darkness
Demons in my head got me
hanging by a threat
Time after time, year after year
On my own it's such a lonely road

Wanna let you know how I feel for you
Wanna let you know I'd die for you

I'm in love with you
You are all I need
I dream you put your arms around me
And set my spirit free
I'm in love with you
You mean all to me
I've been longing for you loving
And hoping you will see
I'm in love with you

Day after day struggle to get through
Feel so alone without you
Tear after tear keep falling from my eyes
I'm so afraid you might no want me too

Got to let you know my need for you
Got to let you know I'd die for you

I'm in love with you
You are all I need
I dream you put your arms around me
And set my spirit free
I'm in love with you
You mean all to me
I've been longing for you loving
And hoping you will see

Like an angel turning dark to light
You come to me in my dreams
Your caresses in a lonely night
Bringing kisses bittersweet, yes kisses bittersweet
Bringing kisses bittersweet makes me feel better
But it's not real

I'm in love with you
You are all I need
I dream you put your arms around me
And set my spirit free
I'm in love with you
You mean all to me
I've been longing for you loving
And hoping you will see
I'm in love with you
