

Doro, I Want More

You know you've my obsession
And I'll make you my possession
Put you under my spell
And you know I play you well
And the minute I start
Yeah, I'm gonna break your heart
Take your flesh, take your blood
But it still ain't enough

Cause I want more, I want it all
I want you, just all of you
I want more, until forever
For pain and pleasure
Won't you surrender to me

No you can't run away
There's no time it's too late
I'm the queen of the night
And I'm gonna treat you right
Give you pleasure and pain
You'll be screaming in vain
While I'm tasting your blood
I feel undying love
And I want

I want more, I want it all
I want you, just all of you
I want more, until forever
For pain and pleasure
When you surrender

I want all, I'll take it all
I want your soul, and all of you
I want more, want you forever
For pain and pleasure
You will surrender to me

I want more, I want it all
I want you, just all of you
I want more, until forever
For pain and pleasure
You will surrender

I want all, I'll take it all
I want your soul, and all of you
I want more, want you forever
For pain and pleasure
You will surrender to me
To me, to me,
I want, I want your soul
I want, I want you forever
For pain and pleasure
You will surrender
I want, I want, I want your soul
I want you, want you forever
For pain and pleasure
Forever, I want you
