

Doro Pesch, Desperately

I might walk along the shadows
Where I find my soul awake as I sleep
Oh my god there's rain when you're gone
What we need in ourselves
We can't find in our dreams

There's a fire storm deep inside of me
Could it be my heart desperately
If the tears I cry bring you to your knees
Could you ever feel desperately

Now the dream I had is over
Somehow I know it wasn't me
Oh my god there was ice when you ran
What I need to believe is the reason of time

CHORUS :

Can't you listen I hear a heartbeat
Or maybe thunder
When you're alone it all sounds the same

Have you ever been desperate
Have you ever been desperate
Have you ever been desperately
