

# Doro Pesch, Don't Mistake It For Love

What a dream come true  
I got the biggest crush on you  
My whole body shakes  
I know I'm gonna break  
But God I'm craving for more

The only thing I really feel is the regret of my heart  
Killing you with kindness  
Like a junkie pushing all his shots

I'll take a bullet in for you  
Or whatever you want me to  
But don't you mistake it for love  
I'll walk the razors just for you  
To show you a thing or two  
But don't you mistake it for love

When you come in view  
I'm keeping cool but man I'm so damn hot for you  
I thought it would be fun  
But then again I think it's turnin' upside down, down, down

Many times I realise all the damage that is to be done  
If you wanna see over the edge  
I already feel like a loaded gun

CHORUS :

So you wanna play?  
You wanna play with fire baby?  
I'll show you fire  
You're lookin' right at it  
Watch me burn into your bloody soul

The only thing I really feel is the regret of my heart  
killing you with kindness  
like a junkie pushing all his shots

CHORUS :
