

Doro Pesch, Love Me In Black

Didn't they tell you the way that it's gonna be
You asked god for a woman and ended up with me
Maybe I'll love you, maybe I'll tear you apart
We live in darkness I've pulled you into my friend
There's no escaping this hell that I've put you in
You must forgive me but loving me is a sin

Are you ready for me
Do you love me in black
I'll push you away
Then make you come back
I can make you feel love
I can be so detached
Do you really want me
Do you love me in black

When I first met you I thought there was a mistake
How could you want me, you made such a easy prey
Didn't they teach you loving is nothing but pain
What do you see when you look in my eyes
A sea of blue, a place where your heart could lie
Where it could drown, where it will never survive

Are you ready for me
Do you love me in black
I'll push you away
Then make you come back
I can make you feel love
I can be so detached
Do you really want me
Do you love me in black

I keep reliving the moment we said goodbye
You didn't kiss me, you didn't even try
You said I made you feel like you were barely alive
In another lifetime maybe another place
Maybe I'll find you, I could be tempted by fate
And try to reach with too little kindness too late

Are you ready for me
Do you love me in black
I'll push you away
Then make you come back
I can make you feel love
I can be so detached
Do you really want me
Do you love me in black
