

# Doro Pesch, Sister Darkness

I see you after midnight  
When the moonlight mirrors in my eyes  
And I do what I like  
And I do what is right  
Slowly come alive

We dance with the shadows  
Unlike anything in this world  
We will use up the night  
And I'll sure treat you right  
Bring you back to life

[Chorus]  
Call me sister darkness  
If you want me  
That my name  
Call me if you want me  
Better call me  
Now you know my name

You won be sorry  
It the only time I treat you right  
Let the magic unfold  
And your body and soul  
Slowly come alive

There ain no tomorrow  
I will drink your blood like old red wine  
Oh, don fear me tonight  
Only once in your life  
You'll be fully mine

[Chorus]  
Call me sister darkness  
If you want me  
Yeah, that my name  
Call me if you want me  
Better call me  
See you again....
