

Doro Und Warlock, Youre My Family

Everyone hurts, everyone bleeds
With all this pain right underneath
All we need is holding on
We got the key
To carry on
'Cause you are

"Chorus"

You're my family
You're my destiny
The only ones
The only ones I want
You mean more to me
More than life can be
The only ones
The only ones I love
We're united in our hearts

The world is turning cold and dark
Our lives so wounded
Full of scars
And when I'm out here on my own
I don't have to face it all alone
'Cause I know
