

# Doro, Unholy Love

Black velvet, pale moonlight  
What I touch is feeling hot... we heat it up  
Dark shadows in motion  
We melt, we never stop... we heat it up  
Show me heaven and the end of the world  
Fear no danger and invite the absurd  
Be my temple where I pray for more  
Be my mirror where I'm free to let go  
Chorus:  
Tie me up and make me scream out loud  
Tie me up and tie me down  
Tie me up, tie me inside out  
Just turn me on and come around  
In danger, in hunger  
In something like a cage... we heat it up  
Warm bleeding, soft screaming  
I feel some human chain... we heat it up  
Show me wicked toys and all there is  
Fear no game I'm sure I will be pleased  
Be my blood moving fast or slow  
Take your time the end is up to you  
Chorus  
I love it when you scream out loud  
Tie me up, tie me up and down  
Tie me up and make me scream out loud  
Tie me up and tie me down  
Tie me up, tie me inside out  
Just turn me on and come around  
Turn me on, turn me all night long  
Tie me up and move along  
Tie me up  
Tie me up
