

Doro, Whenever I Think Of You

You hear it callin'
It's coming tonight on the wind
A love as old as the earth and original sin
If I lay my arms around you
Would you fall apart on me
Close your eyes as I take you
Into the tribe
A lovely night as I take you
Into the tribe
Take my hand, take a bite
Take a look in the past
We were one we were here
Through eternity's dance
When I lay this kiss upon you
You will never leave oh no
As I welcome you...
Close your eyes as I take you
Into the tribe
A lovely night as I take you
Into the tribe
Close your eyes as I take you
Into the tribe
A lovely night as I take you
Into the tribe
As I welcome you
To the tribe
Just close your eyes
As I welcome you
Just right
