Doro, You Ain't Lived (Till You're Loved To Death

Well you've watched the sun set on the seven seas dined in the company of killers and queens you think there isn't much that you haven't done you've tasted everything that can turn you on but there's an innocence in your eyes another magic that you haven't tried

You ain 't lived till you're loved to death you ain't lived till you're loved believe me baby there is so much left you ain't lived till you're loved to death

When I'm close to you baby I can tell you've never been to heaven cause you're soared of bell you think you know love but it's all in vain you've never felt the passion if you feared the pain knocked on the door but you never walked in well let me take you places that you've never been

You ain 't lived till you're loved to death you ain't lived till you're loved believe me baby there is so much left you ain't lived till you're loved to death

Oh there's a whole new world here inside my heart for you baby let me take you there

You ain 't lived till you're loved to death you ain't lived till you're loved believe me baby there is so much love you ain't lived till you're loved You ain 't lived till you're loved to death you ain't lived till you're loved believe me baby there is so much left you ain't lived till you're loved to death

Let me love you let me love you to death believe me baby there is so much love you ain't lived till you're loved to death
