

Dottie West, And I'm Still Missing You

People laugh and love and cry and I'm still missing you
The paper boy still comes around just like he used to do
But he's a little taller now and I'm still missing you
The leaves are piled against the fence the sky is hazy blue
There's talk about an early snow and I'm still missing you I'm still missing you
The swirling winds of time bring many changes
But for me they only blow across the surface of my heart
And they can't cool this memory of you that burns so deep inside me
Dick and Jane came by today their baby's almost due
People laugh and love and cry and I'm still missing you I'm still missing you
