

Dottie West, Beautiful Way To Live

When I wake up every morning you're the first thing that I see
And like a new day that is dawning I feel the warmth come over me
I can face the world a courage I can make it through the day
Cause I know your love comes with me standin' by me all the way
Oh what a beautiful way to live just givin' you all the love can give
Oh what a wonderful thing to see that you don't want nobody but me
[guitar]
I don't know how I'm deservin' to be blessed with all these things
Like the sweet love you keep servin' and the happiness it brings
I don't worry bout tomorrow way I always used to do
Cause tomorrow I'll be sharin' for some yesterday with you
Oh what a beautiful way...
[fiddle]
Oh what a beautiful way...
