

Dottie West, Gettin' Married Has Made Us Strangers

Maybe I should give your ring back we were closer when our hearts were free
Gettin' married has made us strangers we're not the lovers we used to be
We don't talk now like we used to I don't know you and it breaks my heart
Gettin' married has made us strangers the more I see you the more we drift apart
Are you too used to me am I too used to you
Is it too late to save the tender love we knew
Kiss me darling like you used to let's be lovers like we were before
Gettin' married has made us strangers oh won't you say we'll be strangers no more
[strings]
Gettin' married has made us strangers oh won't you say we'll be strangers no more
