

Dottie West, I Can Turn You Every Way But Loose

You live it up turn me down now it's gonna be the other way around
I can turn you every way but loose
You take me in then turn me out now we're gonna take it and turn about
I can turn you every way but loose
I can turn you every way but loose for I can never ever let you go
Can't stand to see you with someone else while I still love you love you so
Don't ask me to let you go for honey I just want you to know
I can turn you every way but loose
[guitar]
I can turn you every way...
