

Dottie West, In Its Own Little Way

In its own little way my heart keeps missing you
In its own little way my heart keeps wanting you
I'm hoping that you'll come back to stay
My heart keeps loving you in its own little way
If my heart could forget then I know I could meet
Myself I'm someone new but my heart wants only you
In its own little way my heart keeps dreaming to
In its own little way my heart keeps crying to
Still hoping that you'll come back to stay
My heart keeps loving you in its own little way
My heart keeps loving you in its own little way
