

# Dottie West, In Its Own Little Way

In its own little way my heart keeps missing you  
In its own little way my heart keeps wanting you  
I'm hoping that you'll come back to stay  
My heart keeps loving you in its own little way  
If my heart could forget then I know I could met  
Myself I'm someone new but my heart wants only you  
In its own little way my heart keeps dreaming to  
In its own little way my heart keeps crying to  
Still hoping that you'll come back to stay  
My heart keeps loving you in its own little way  
My heart keeps loving you in its own little way
