

Dottie West, It's Dawned On Me You're Gone

I talked to me and I told me you'd be leaving I made my plans to get up from the fall
I talked to me into thinkin' I could make it but oh it's dawned on me you're gone
It's like I didn't even talk to me or make any plans at all
It's like I died and lived and died again at least ten thousand times
When I realized all you left are these mem'ries in my mind
Oh it's dawned on me you're gone
It's like I didn't even talk to me or make any plans at all
It's like I died and lived and died again at least ten thousand times
When I realized all that you left are these mem'ries here in my mind
Oh it's dawned on me you're gone
It's like I didn't even talk to me or make any plans at all
Oh it's dawned on me you're gone
