YOU TOOK THE EASY WAY OUT

You said our love was not the same and that I was all to blame
You took the easy way out
And though I loved you heart and soul that's not the story that you told
You took the easy way out

You came home while I was gone packed your things and moved along
You took the easy way out
Left me alone to explain to our friends and bear the shame
While you took the easy way out
You came home while I was gone...
