

# Double You, What Did You Do

Remember all the love we shared  
But you never thought  
I was at your side

Remember all the love we shared  
But you never thought  
I was at your side

Remember all the love you gave  
But you never saw  
All my honesty

You were the ghost in me  
Haunting my dreams  
But I was at your side

What did you do  
What did you do with my love

Oh Baby

You gave me the best you could  
You gave me your heart  
Like nobody else

Remember all the love we shared  
But you never knew  
I was at your side

Remember all the dreams we had  
You took them away  
And tore my dignity

Remember all the love you showed  
But you never came  
I was at your side
