

DoubleDrive, Dressed In Light

Make what you can do
seem ever true
and everlasting
ringin' in my ear
rings out my head
it is a world of principles
you can not go anywhere
you will not go anywhere
all dressed up but nothin's there

Where do we go from here
dressed in light
is something better near
dressed in light
i jump high so i can pull the string
set off the thing
get a light
and get vertigo
and i remember what you said
it is a world of principle
you can not go anywhere
you will not go anywhere
all dressed up but nothin's there

Where do we go from here
dressed in light
is something better near
dressed in light
