

# Dove Cameron, We Go Down Together (feat. Khalid)

Sometimes we fly, sometimes we fall  
Sometimes I feel like we're nothing at all  
Dream in the light, dance in the dark  
You fill the spaces inside of my heart

Am I really mine, are you really yours  
If all your emotion cuts straight to my core  
Times when you cry, I feel it all  
Whenever you leave me I wait for your call  
You are everything I'm living for

If you go down, then we go down together  
If you hold on, I might just stay forever  
If you get hurt, I'll try to make it better  
If you go down, then we go down together

Sometimes we're right, sometimes we're wrong  
Sometimes the line has just never been drawn  
Nights when we fight, we strike a chord  
Then we forget what we've been fighting for

Lay on the floor, sleep in your arms  
Pausing the world to stay right where we are  
Close all the blinds, lock all the doors  
Things fall apart and I'm wanting you more  
You are everything I'm living for

If you go down, then we go down together  
If you hold on, I might just stay forever  
If you get hurt, I'll try to make it better  
If you go down, then we go down together
